Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

Response to Amendment

The reply filed on December 21, 2007 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s):

In order to be entitled to reconsideration or further examination, the applicant or patent owner must reply to the Office action. The reply by the applicant or patent owner must be reduced to a writing which distinctly and specifically points out the supposed errors in the examiner's action and must reply to every ground of objection and rejection in the prior Office action. The reply must present arguments pointing out the specific distinctions believed to render the claims, **including any newly presented claims**, (emphasis added) patentable over any applied references. See 37 CFR 1.111.

In one instance, in addressing newly presented claim 24, the applicant directs examiner's attention to the discussion with respect to claim 8. The discussion with respect to claim 8 argues that Otsubo does not teach each of the first and second elastically stretchable and contractible members being directly attached to the core. Claim 24 does not set forth this limitation and thus has not been properly addressed.

Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michele Kidwell whose telephone number is
